News From Your TOWN HALL

At the time this is written, the clock Thursday—your fire department is in the same mess it has been for six to eight months, although there is a local man available, ready and willing to work. He is acceptable to the Fire Chief, who is not usually consulted in things concerning the Department's hiring and firing, and is acceptable to the volunteer firemen.

Just how long this condition will continue depends on whether or not owners of buildings who pay out large sums, and back for that matter, sit small and "let John do it."

There's money in the Town Treasury to pay two firemen and that is what the Underwriters expect and was promised. Your rates were lowered on that agreement, and unless it is kept they will be raised, instead of lowered.

The volunteer men are becoming disgruntled and are staying away from practice, and some fire calls. There has been an unusual esprit de corps among the boys and that is fast becoming a thing of the past.

The one fireman, policeman, jailer, it is understood, has told anybody connected with the Town whom he thinks has or will take anything to do with it that he is about at his rownd end.

If you are interested in your insurance rates and whether or not you have a decent fire department—if you have any gratitude to Lawrence Will for what he has done—then express yourself to whomever you think can or will do something about it.

It is a pity to let policies tear up what it has taken 16 years to build, aside from the money it's going to cost you.

If you agree, do something about it; if you don't then "them's still our sentiments."

Progress is being made on the Town zoning ordinance and preparations are being made to make it easy for the people to understand the new regulations. A map is to be prepared to go along with the written ordinance so that by reference a person may determine just what areas are covered in the several zones.

Lions Of Two Towns To Lie Down Together With Footballers

The Lions of Pahokee and Belle Glade, in order to stimulate good fellowship between themselves and to promote sportsmanship and good feeling between the respective teams will give a banquet for the two squads Friday night the 20th of January at the school cafeteria. This is an annual affair, the first being the second banquet. The two clubs give every year a handsome cup to the team winning the inter-town games. So Pahokee won it the first year and kept it this year on account of a tie.

"I Axed The Wrong Man Fur A Ride, Jedge"

The Mayor-Road Superintendent was buzzing along the north side of the Canal about the packhouse when he was flagged down by a dinky citizen wanting a lift up town.

After seeing himself the vacationer, the packhouse driver offered his benefactor a swing from his bottle, and it is reported, indicated that he would be the chief guide to some of the night spots around town.

During the remainder of the journey across the bridge and a right turn west on Avenue A, the rider assured the driver of the car that "anywhere right round here will do for him. The driver, however, pulled up in front of the Town Hall and said "Here where we get out."

The rider, noting the tone of voice, and looking back a good look at the packhouse driver, said "Well, I do declare Jedge, I did know this was you. Guess I make a mistake." The boy was arranged before the acting judge and pleaded guilty and when asked what reason he had he replied, "I axed the wrong man for a ride."

18 Whites Go To Camp Blanding

Of the eighteen men leaving Belle Glade Monday morning for Camp Blanding, eight had a one-way ticket, that is induction. Ten of them are going up for preinduction.

The list is as follows: Preinduction—Lester Garlon Berryhill, William Bullard Bridges, James Richard Cherry, Cecil McGee Green, Julius Green.

Transfers—Burt Stanton Garrie, James Thomas Harris, Luther Edward Hughes, James Wilmer Urry.

Induction—James Eugene Caldwell, Jr., James Thomas Cook, Kenneth Cray, John Henry Ellison, Kenneth Leon Warren.

Transfers—Joe Cephus Fowler, Charlie Anderson Kirkland, Edgar Stanberry.

P. T. A. Hold Business Session

The Parent Teacher Association held their regular business meeting Monday night at the High School cafeteria with the President, Mrs. F. D. Stevens, presiding. Plans were discussed for the spaghetti supper to be given at the school house Monday night, January 20th for the benefit of the library fund. It was announced that the tickets are now on sale by the seventh grade students.

Mrs. C. A. Thompson, Mrs. Walter Schleicher and Mrs. Ogle Moore was appointed as a committee to work on the housing situation for the school teachers for the coming year.

It was announced that the next meeting would be held during the afternoon on February 12th, and a Federation Founders Day Program would be conducted and Mr. John Leonard and Mr. Carmon Salvatore are expected to attend.

Methodist Bishop Of Atlanta To Address Local Audience

The Lions and Rotary Clubs joined in a banquet to the football squad and their parents last Friday night at the School Cafeteria with a total attendance of approximately 140.

H. O. Earwood acted as toastmaster and had both Prof. Hosen and Coach Cook billed for short classes in the evening very appropriately. Coach Cook expressed satisfaction with the record of the boys in their first season and looks forward to years of a most successful team.

B. Q. Waddell for the players praised the Coach for his ability to coach but couldn't give him so much as a hunter. B. Q.'s talk was well received.

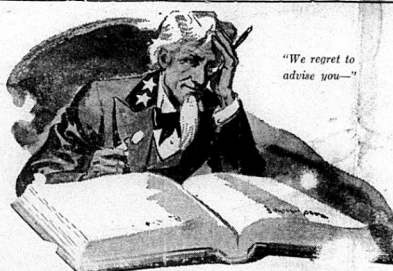

The Belle Glade Herald presented 19 gold footballs to the boys "not for a good score they made, nor the teams they beat, but for a job well done—playing the game." The balls are given only a day or so before the banquet and the engraving will be done by Rashley's and the balls returned to the boys.

Ensign Bill Daley, all-American, was the guest speaker. He is a member of the B-29 and flies from his base in Saipan. Before going overseas last November Christopher was stationed at HATT, Kansas.

Where Was Belle Glade At Scoutmasters School?

Bill Minn reports that there were 21 Canal Point and Pahokee students at the first Scoutmasters' school held last Friday night and no one from Belle Glade or South Bay.

The boys must have leaders if Boy Scouts are to go ahead in this area, and the purpose of this school is to teach more parents and show interested just how to become leaders in their own homes. The school is held alternately in Belle Glade and Pahokee on Friday nights, the first school being held in Pahokee at 7:45.

EUGENE H. BARWICK PFC

22 year old son of Mr. and Mrs. Gene Barwick, is reported "missing in action in the European Theatre since December 25th." Barwick is a Browning Automatic expert.

Gene, his father, is manager of the Hooker-Thompson packing house.

ROBERT E. JONES AOM 2c

Robert Eugene Jones, Aviation Ordnance Man of the U. S. Navy, has been reported "missing in action"

Robert is a graduate of the Pahokee High School, class of '41, of which he was president, and a student at the University of Florida at the time of his enlistment. His brother, Ferris, QM 2c, is now stationed at Key West, after seeing action in the South Pacific and the European Theatre.

Lions And Rotary Clubs Banquet The Football Players Of This Season

The Lions and Rotary Clubs joined in a banquet to the football squad and their parents last Friday night at the School Cafeteria with a total attendance of approximately 140.

PFC. BRAXTON PATE

Private First Class Braxton P. Pate of the Army Air Corps is now serving in England. He is the son of Mr. and Mrs. Myrtle Pate and entered the Army two years ago. After receiving his basic training in Miami Beach, he was based at camp in California, Texas and shipped

War Mobilizer Jimmy Burns proposes, with the blessing and assistance of the President, that as long as the boys such as these, and the others who have gone before them, must pay the price, then every one should go "all out" under a universal service act.

Mr. Byrnes, Mr. McNutt and the War and Navy Brass Hats, were of the opinion that the country should operate under a Universal Service set-up, a long while ago.

Restrictions are slapped on under authority of existing laws, the Selective Service is tightening up, and there are strong intimations that Congress will add to these, even the principle that everyone should do his part.

It is right that hundreds should work half time, or not work at all when these boys give what they have?

You answer it, and you will answer it, for the casualty list in Belle Glade is not yet complete.

Getting a telegram reading "we regret to inform you—" gives a new slant on black markets, lagging workers, slackers and nonconformance to the war effort.

Five More Are Added To The List

1st. Lieut. Geo. A. (Andy) Taylor is reported missing in action since December 22nd in Belgium.

Although an infantry officer, Andy was serving with the 7th Armored Division and was helping Montgomery hold the northern flank of the German push.

His brother, Corp. William (Billy) is serving with the E Army in Egypt.

Andy was in the naval reserve but when his tour was completed he signed on with the Army and is wearing the silver bars of a first lieutenant.

Building For School Band Turned Over To Local School

Thru the efforts of Carmen Salvatore and the assistance of Capt. M. A. Bishop of the Palm Beach Port Commission Belle Glade's High School band composed of about 60 pupils will have a house all to themselves in which to practice.

Carmen brought down a building from Canal Point 1630 and the ambitious musicians can tuck their hearts content without disturbing the occupants of the school building.

The band is progressing very satisfactorily and will soon be able to officially represent Belle Glade as it did at the bond burning.

FUNERAL SERVICES FOR INFANT MCCLURE

Private funeral services were held yesterday for the infant son of Mr. and Mrs. Cecil D. McClure, who died at the Good Samaritan Hospital on Tuesday night. Burial was at Woodlawn Cemetery. He is survived by one sister and the parents.

Charles William Buck, son of Dr. Wm. J. Buck, recently wired his father from California that he would arrive here in a few weeks. He is a member of the Aviation Signal Corps of the Army and has been stationed in New Guinea for the past three years.

SGT. ROBERTSON 0 Word has been received that Rose Robertson has been promoted from corporal to 6c rank of sergeant. He is serving with an engineering corps on Saipan. Two other local boys, Lt. Bob Christopher and Cpl. Bob Murray are also believed to be stationed on Saipan.

Mounts Calls Farmers Meeting To Discuss Spring Labor Needs

County Agent M. U. (Red) Mounts is calling a meeting next Thursday night, January 25th, at the Town Hall, Belle Glade, to discuss the spring labor requirements, and to consider the needs for next fall.

The labor situation for the spring field has every indication of being acute. There are now labor requests for more than 5,500 Bahamians with the report that there will be only 1,500. (Retaining 1,500 to do 5,500's work) will really be a marvel, when it has been the custom recently to have 3,500 to 4,000 to do the work of 1,500.

There is an out-German prisoners of war—much. It is reported will have some rocky bumps to hurdle from nonfarmer producing proposals.

Mr. Mounts will have facks and fingers to give the meeting and it should produce some pertinent discussions. Prospects of fresh vegetables rotting in the fields for lack of labor are calculated to bring forth some interesting proposals.

Maybe Mr. Byrnes' universal service act will be in operation to help the situation.

Returning Veterans Available For All Sorts Of Positions

Mike Murphy, Service Officer of the local Legion Post and Re-employment Committeeman for the local Board, is having returning service men coming to him daily for jobs.

As is to be expected, there are all types of men available from truck drivers to office help and bookkeepers. Mike reports a number of tractor and bulldozer drivers as well as truck drivers who have had experience in mud worse than any we have, beside digging bullets between gear shifting and cussing.

This list of available men will grow from now on and there should be a source of some excellent men.

List your needs with Mike and give him a little time; he'll probably be able to fix you up.

MUSICAL OF LOCAL STUDENTS ANNOUNCED
Mrs. Cornelia is announcing that her local students are taking part in a musical to be held at the Community Club, 2 at 8 o'clock, on Friday evening, Feb. 24.

"Erroneous Assumption" Is Cause, Says Chester Bowles, Administrator

"The area limitation which excludes South Florida counties from the price schedule applicable after May 1, for other Florida counties east of the Suwannee River appears to have been based upon an erroneous assumption that all early potatoes from the southern counties were harvested and marketed prior to May 1," says Mr. Bowles.

He further states "corrective action found necessary will follow promptly." One broker commenting on this statement said "speaking of 'promptly' means within one year and 'immediately' anytime within 24 months."

Despite this situation, Tab's Market Service, which is considered tops in knowledge of the potato field, predicts a "bad" market and a scarcity of potatoes, even equal to the '43 emergency of households.

We are advised that the Florida Vegetable Committee and the Federal Farm Bureau are busy in Washington in an attempt to get this "corrective action" referred to by Mr. Bowles.

It is well, however, for local farmers to know that they are not likely to run into a few cents per pound loss. If labor is no worse than now, the potatoes are not frosted, not rained out nor eliminated by blight.

May 16-18 ceiling is \$3.00 for Glades and \$3.40 for points north. If they dig them May 1-15 the price is \$3.30 for us and \$3.40 for the others. Now if you can dig them the latter part of April you can get \$3.60 for them—1P.

Just spring there were 141 cars of potatoes shipped from the Glades. There were 4 cars by March 31st; 11 the following week and one the following. May 16-18 ceiling is \$3.00 for Glades and \$3.40 for points north. If they dig them May 1-15 the price is \$3.30 for us and \$3.40 for the others. What will Jan. 15th to Feb. 1, 1945 bring forth in the way of cold weather. According to the Experiment Station records over a period of 20 years, 40 degrees temperature or lower have been recorded 14 times with seven years having 32 degrees or lower.

Conversely, there have been six years during that time when the temperature has remained above 40 degrees. So we stand a 30 per cent chance of not having any frost, and a 65 per cent chance that we won't have any freeze.

Here are the figures, so figure it out.

Real Security
 Job security is understandably a primary concern of millions of people, even in these days of manpower shortages. From this concern springs the tendency to look to government for reassurance, regardless of consequences.

On the question of how American workmen can achieve greater security, the comment of a spokesman for the coal industry is worthy of consideration. Speaking of the miners, he says: "The miner's improved working and living conditions of today are possible only because under the American system, efficient management, cooperating with and having a responsibility to labor, has created the opportunity to work. Greater security depends on a continuation of that system, free from government strangulation."

When private management and labor work together as independent producers and the government acts as umpire, the worker in the long run is assured of fair treatment and progressive improvement. Government pulls for him. But when government is both employer and arbitrator and private management is eliminated, government pulls for nobody but itself. There is no higher authority, no umpire to set that the game is played fairly.

Private employment under private management is, in a sense, merely the implement by which labor stays free of government oppression. Is this not real security?

Disservice To Labor
 The American Federation of Musicians refused to make phonograph records until it was allowed to collect from a half-cent to two cents on each record, over and above union wages—the public pays the assessment. With this precedent established, what it to prevent any union from refusing to produce until it is allowed to collect a percentage on its output—or what is to limit the amount of the assessment?

Then there is the case of Cecil B. DeBelle, dean of American film producers. He belongs to the union of the American Federation of Radio Artists. He is seeking a court restraining order to prevent his suspension.

sion as a member of the union for declining to pay an assessment levied by the union to raise a fund for a political campaign.

If unions, or other organizations, are allowed to levy tribute on each article they produce, or if they are allowed to mulct each member for political contributions, what becomes of property rights and personal liberty in this nation?

What would happen if an industry tried to force each one of its employees, on threat of losing his job, to contribute a specified amount to a political campaign fund? Our people resent compulsion. When organizations become oppressive, they must be curbed. The Constitutional amendments just passed in Florida and Arkansas protecting a man in his right to work, shows the tide is turning. The musicians' union and the radio artists' union have rendered a disservice to organized labor that will be for reaching.

CINEMATIC CHATTER

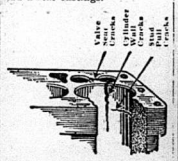

By Malcolm Miller
 When Paramount studios gave us "The Miracle of Morgan's Creek," they gave us one of the funniest shows that had come out of Hollywood and we laughed until our sides ached at the antics of Eddie Bracken and Betty Hutton. No I see slated for the Everglades Theatre for this coming Sunday-Monday "Hail The Conquering Hero," which stars Eddie Bracken and Ella Raines and features Franklin Pangborn, William Damarest, Jimmy Dundee, Freddie Steele, Georgia Caine and Esther Howard. From all accounts gathered from press books and New York critics reports, I would not hesitate to recommend this picture as one of the laugh riots of this season.

On the double featured program for Tuesday-Wednesday I see the Andrews Sisters and Harriet Hilliard starred in the opener on the program under the title "Sentimental Johnny," which features Peter Cookson, Matt Willis, Bill Phillips, Tim Ryan, Mitch Ayers and Tim's orchestra and a heavy of beautiful chorines. There is very little plot, as the picture was built to star and feature the talents of the Andrews Sisters and Harriet Hilliard. However there are some good moments of comedy that you will find enjoyable and the peculiar singing of the Sisters will no doubt please a large proportion of the crowd attending.

The second picture up stars Victor Jory and Pamela Blake and is titled "Unknown Guest." This one is a mystery with a lovely murder plot for those soft seated detectives to unravel. Of course there will be moments

PAIR OF WIRES TO THE POLE
WIRES IN CABLES
CENTRAL OFFICE EQUIPMENT

It takes a lot more than a telephone!

The instrument in the home is a very small part of the equipment needed to give telephone service. There must be a pair of wires leading from the house to the pole line, a pair of wires in the overhead cable, and another pair in the underground cable, switchboards and a vast amount of central office equipment.

When we cannot give you service it may be because of the shortage of one or all of these items. Of those persons waiting for service, only about one-third could be served if instruments were available. If you are waiting for home telephone service, we think we know how you feel. You would like it now. And we would like to install it for you now.

But as long as the needs of war have first claim on telephone facilities and until manufacture of equipment in adequate quantity is resumed, we cannot tell you when we will be able to serve you. Your order is important and we promise it will not be forgotten. It will be reviewed frequently and will be filled in its proper turn. That might be some time after final victory.

...but
what has a ROSE to do with
Jax Beer?

Just as the rose is an aristocrat among flowers because of its delicate, haunting fragrance, so JAX Beer—with its fresh, tempting "bouquet"—is an aristocrat among brews.

Pour a glass of this sparkling "Drink of Friendship"... notice instantly that it has the keen, appetizing aroma possessed only by great beers. Then look at its brilliant color... taste its full-bodied richness and distinguished flavor. All these are the unfailing signs of fine beer.

For a beer with premium qualities at a "no-premium" price, say "Make mine JAX!"

State's Most Expensive Enemy Is—Rats

The State Board of Health
revealed the astounding esti-
mate that Rats were responsible
for the destruction of as much as
\$40,000,000 worth of property
and food stuffs in Florida during
1944.

Unfortunately, a large amount
of the destruction was a "hidden
loss" and its gigantic proportions
difficult, therefore, to impress
upon the public, according to
George S. Bote, Executive As-
sistant, Typhus Control Unit, U.
S. Public Health Service, cur-
rently on loan to the Bureau of
Sanitary Engineering.

Nor did the rats' campaign of
waste stop with food and prop-
erty, but carried dangerously
near to the health of Florida's
citizens. For the rat is also re-
sponsible for the State's danger-
ous and steady increase in ty-
phus fever during the past four
years—the rate of which is
known to be even more wide-
spread than was officially re-
ported to the State Board during
the year just ended.

Thirty eight counties reported
typhus with the total incidence
rising to more than 500 cases.
This represents an increase of
185 cases over 1943. Yet, this
does not tell the whole story, for
various records available to the
bureau reveal that more than
county had outbreaks ranging as
high as ten cases, with no cases
reported officially to the bureau
of epidemiology. Other counties
reported specific numbers of
cases, while information from
local sources indicates that the
number of persons stricken by
the disease was considerably
greater than reported. Private
physicians are responsible for
individual cases.

The rat flea is the carrier of
both the typhus and the dreaded
bubonic plague germs. (And bu-
bonic plague can "happen" in
Florida. In 1920 Pensacola re-
ported 14 cases with 13 deaths.)
Typhus, contrary to some opin-
ion, cannot be transmitted to a
flea. The bite, however, per-
son through the bite of an in-
fected rat, the flea, however,
may cause the serious rat-bite
fever.

Bote declared that the gross
destruction of foods and prop-
erty in Florida during this critical
emergency, plus the danger to
public health, can be curtailed
only by greatly reducing in num-
ber the State's most expensive,
enemy—the rat.

But the rat cannot be control-
led by any one single measure.
It requires the application of all
known measures of rat destruc-
tion to do the trick, as rats mul-
tiply too rapidly to be hobbled
by one mode of elimination.

For instance, the gestation
period of a rat is 24 days—fe-
males begin raising their fami-
lies at the age of three months,
with each litter averaging from
five to nine young. It has been
calculated that a healthy pair of
rats with plenty of food and
shelter can produce as many as
1400 offspring in a single year.

It is easily seen therefore, that
a campaign of a single type of
destruction will not solve the rat
problem. All form of food sup-
plies must be cut—garbage cans
must be covered tightly—build-
ings rat-proofed from cellar to
attic. Poisoning has an im-
portant place in the over-all, which
must be continuous and directed
with intelligent effort, Bote em-
phasized. Sporadic efforts can
mean but temporary relief, with
money and time poorly spent.

It is up to the individual com-
munity to determine the number
of rats it chooses to maintain, he
declared, primarily by the food
it makes readily available to
them through storage in non-rat
proof places and garbage left in
open cans.

White Potatoes Are Threatening The Red Bliss In Glades

A few local farmers planted small acreages of white potatoes this season and most of them are well pleased with the results. The following is a report of activities in the Hastings area.

A battle of potato varieties has been going on in recent years in the winter growing area of central Florida, the Hastings area. Reports year after year by the U. S. Department of Agriculture

on cooperative tests in this area, carried on with the Florida Agricultural Experiment Station, indicate that several of the new varieties developed in the Federal-State potato breeding program, all with Indian names, have been driving out old varieties and then competing among themselves for the territory.

According to Dr. F. J. Stevenson, of the Department's research administration, Katahdin, the first cooperative variety to be introduced here, practically drove out Spaulding Rose which

had long been a favorite with the Florida growers. Katahdin was a higher yielding than Spaulding Rose but not so high as Sebago which followed a few years later and, with a better combination of good qualities, began pushing Katahdin for first place in the area.

Now Sequoia, the cooperative variety from North Carolina that is doing exceedingly well in its home territory and in Tennessee and various other places is causing many of the growers in the Hastings district to pause between it and Sebago. In this

central Florida area one of the most important characters in a potato variety is its ability to recover after freezing injury to the young plants, a kind of damage that occurs about one year out of two. Katahdin, Sebago, and Sequoia all do very well in this respect. Pontiac, another of the potato program products, this one from cooperation with Michigan, also recovers well from early freezing. All three—Sebago, Sequoia and Pontiac—are damaged less than most standard varieties by periods of drought. Pontiac is a red-skin

and, according to the specialists, is not likely to become popular in this territory, where the commercial crop has been almost entirely of white-skinned varieties. So Sebago and Sequoia are now fighting it out. Both are light-skinned. Sequoia is a somewhat heavier yielder (50 percent above Katahdin), but its tubers are more subject to damage by late blight than is Sebago, which yields about 32 percent more. U. S. No. 1 grade potatoes than Katahdin. Sebago has a clean light skin while Sequoia has a skin mottled by russet patches.

Dr. Stevenson says that whichever new potato finally predominates, one of those already produced in the cooperative breeding may come from this source later, will hold this Florida area. Even now, the old favorite, Spaulding Rose, clings to no more than 5 per cent of the Hastings field.

Annual Meeting of Red Cross To Be Held Jan. 26th.

Friday, Jan. 26 at 3 p. m. has been set as the time for holding the annual membership meeting of the Palm Beach County Chapter of the American National Red Cross, which will take place at the Everglades Club in Palm Beach again this year.

Eligible to attend the meeting are all holds of 1944 Red Cross membership cards. Special invitations also have been sent to the military in the area and to public officials and representatives of various organizations.

A hope that there will be a large attendance as usual has been voiced by Chairman J. Field Warlaw. He said the program will include an address by an outstanding speaker.

Officers and executive committee members are to be elected for the coming year and copies of the annual Chapter Report will be distributed.

Information concerning the 946 War Fund Drive will be presented by Alf R. Nelson, first vice-chairman of the Chapter and chairman of the War Fund Committee. He is expected to explain the necessity for increasing the county War Fund quota to \$185,500 from \$169,500, owing to growing demands for Red Cross services in the European and Pacific theaters of war. To meet these demands the American Red Cross increased its 1945 War Fund goal to \$200,000,000 from \$150,000,000, thus requiring all chapters to lift their quotas.

Candidates for Chapter officers, recommended by the nominating committee and approved by the executive committee, are Alf R. Nelson, chairman; Jerome D. Godney, first vice president; Mrs. E. H. White, second vice chairman; J. J. Cater, treasurer; Hartley A. Burgess, assistant treasurer; Mrs. Turner Wallis, secretary; Mrs. Henry R. Rea, honorary chairman.

Nominations for officers and Executive Committee members also may be offered from the floor. Candidates for the Executive Committee are:

Belle Glade, Guy J. Bender, Mrs. B. Fleming, Canal Point, John Harrington, Paul Rardin, Harold Rosenberg, Pahokee, John A. Dulaney, B. Elliott, Joe Hatton, O. B. McClure.

Death of Mrs. White

Mrs. Mary Juanita White died at the Good Samaritan hospital in West Palm Beach Saturday morning after an illness of two days diagnosed to be spinal meningitis.

Mrs. White was born in Waukegan, Illinois, October 11, 1924, the daughter of Mr. and Mrs. L. R. Johnson, now living in Belle Glade. She made her home here for some years and was employed at the Friendly Market at the time she was stricken.

She leaves to mourn her death besides her parents, her husband John Ernest White now on overseas service in the navy, a son, Johnnie Jr., 2 years of age, two brothers, LeRoy Johnson with the navy stationed at Monterey, Cal., and D. W. Johnson with the U. S. army in Italy, two sisters, Wanda and Yonelle Johnson both of Belle Glade.

I saw three ships a-sailing...

Yes, at least three new ships are added every day to the fleets of our Merchant Marine. In these proud vessels precious equipment is carried to our fighting men the world over.

Our supply lines must not falter. We have the ships, we have the munitions, and we must have the men to man those ships — now! At least three new crews must be ready to go to sea every day in the week. A total of 5,000 new merchant mariners is urgently needed each month.

How about it mister? Want to go to sea? Want good pay while training, opportunity for promotion, steady employment after victory, travel to foreign lands? Want to do a mighty important job in this war?

Then apply at once for training at any office of U. S. Maritime Service, the War Shipping Administration, or the U. S. Employment Service. Any physically qualified man, 17 to 50, may now apply for Maritime Service training if he has not yet been called for Selective Service induction. Discharged war veterans are welcome!

This is your opportunity to do a big and mighty important job for your country... apply now... today!

MISS EDNA WYNN

A recent graduate of the Vocational Beautician's School in West Palm Beach, and now an operator at the Belle Glade Beauty Salon, owned and operated by Mrs. Allie Barrow.

Miss Wynn has made her home here for many years and is a graduate of Pahokee High School and before enrolling at the Vocational School was employed by Darden's Pharmacy. Upon the successful completion of 1,000 hours of beautician's training, Miss Wynn graduated with the highest honors of the class and immediately passed her state board examinations at Miami with a very high rating.

As a part of the graduation exercises, a class prophecy was read in which it was predicted that Miss Wynn would succeed as a successful and efficient beautician.

She is also a member of the National Hairdressers and Cosmetologists Association and also holds a diploma for hair tinting from the Clairol Company.

COMMUNITY METHODIST

CHURCH

at 7:30

BISHOP MOORE is Chairman of the Board of Missions of the Methodist Church and is Executive Director of its church in four Southern States.

His experiences include years of service in foreign countries, and his duties are hampered at present by the war, as parts of Africa, France and Belgium are within his Bishopric.

His rhetorical abilities are understandable and appealing; his knowledge of things religious are profound and he appeals to grammar school students as well as to mature thinkers.

OUR CHURCHES

RELIGIOUS ATMOSPHERE AND GROWING APPRECIATION OF THE SPIRITUAL

In 1928 the hurricane eliminated the makeshift House of Worship in the one struggling congregation.

Tents, the Legion Home, the Woman's Club were progressively used for meeting places and religious activities following the hurricane.

We now have seven congregations—Methodist, Baptist, Seventh Day Adventists, Scientists, Church of God, Catholic and Lutheran.

Five Houses of Worship—the first five above, and the Catholics own land for a site.

It is estimated there are approximately 1,000 white church members of the several congregations. There are approximately 500 who attend Sunday School.

All church properties are paid for and there are substantial funds on hand and being added to for post-war expansion.

The Community is growing spiritually with its physical growth.
